

NorDan's PPWR compliance assurance

NorDan has established processes to ensure compliance with the applicable requirements of Regulation (EU) 2025/40 on packaging and packaging waste. This includes mapping the packaging used for NorDan products and establishing a structured approach to conformity assessment and documentation.

For packaging falling under NorDan's responsibility, the compliance assessment covers applicable restrictions on heavy metals and other substances of concern, conformity assessment, preparation of the EU Declaration of Conformity, and supporting technical documentation.

The documentation is prepared for defined packaging types or families of packaging with comparable design and material composition. It is based on technical assessments and relevant supporting information obtained from suppliers and other source

PPWR documentation and customer support

Regulation (EU) 2025/40 applies from 12 August 2026. For relevant packaging placed on the EU market from that date, NorDan will maintain the applicable EU Declaration of Conformity and supporting technical documentation.

NorDan can provide customers and other relevant economic operators with the PPWR-related information necessary to support their obligations in the supply chain. Depending on the packaging type, NorDan's role and the applicable requirements, this may include information on material composition and packaging weight, applicable substance requirements, recyclability and recycled content, as well as confirmation of the applicable EU Declaration of Conformity.

Upon a reasoned request from a competent national authority, NorDan will provide the necessary information and documentation within the applicable regulatory timeframe.

NorDan will continue to review and update its documentation and internal processes as further EU guidance, standards and implementing measures become available.

Place: Bor - Sweden
Date: 2026-08-11
Name: Fredrik Jonsson, Teamleader CC EDPI

Group-appointed responsibility for issuing and maintaining Packaging Declarations of Conformity (DoC) in accordance with the Packaging and Packaging Waste Regulation (PPWR) on behalf of the NorDan Group.
